

## Technical Bulletin #48

July 20, 2015

### Color Variations in SuperCat I

Due to a change from one of our raw material suppliers, future batches of SuperCat I [ITB0799] may have a darker orange appearance.

*(The color difference will only be noticeable in larger quantities i.e 1 gallon containers)*

The color difference of the SuperCat I will not affect the EX-2C paint color.

The color change has no effect on the strength or usability of the SuperCat I.

Please be sure to read the TDS for usage instruction on [SuperCat I](#)

For any questions on the color of SuperCat, please call the Endura color dept. at 1-800-661-9930.
