

Technical Bulletin #55

New expiration date for Endura Urethane Activator (Component B) Products

Late last year, Endura was able to increase the shelf life on our epoxy activator products to 2 years. We have been testing and working to add this feature to our urethane activators and are pleased to announce that all Endura urethane activators will now have a 2-year shelf life.

The following products will now have a 2-year shelf life. *(this applies to unopened containers only)*
