

Technical Bulletin #56

Introducing new Endura Tint Bases – TB55 and TB57

Endura Manufacturing is phasing out TB15 and TB17. They are being replaced with new Tint Bases that have been formulated to provide superior long term UV stability.

The new TB's are now available for sale; it is recommended that all distributors carry these new TB's, as they will be used in all new Endura formulas.

Please note the Endura lab is working to rematch existing colors that used TB15 and TB17 as the new Tint Bases are not direct offsets. Colors formulated with the old TB15 and TB17 will need to be rematched using TB55 and TB57.

Color: Light Green-Yellow (More Green than TB15)

ITB0055-020	TB-55 YELLOW – 1QT	\$58.52
ITB0055-030	TB-55 YELLOW - 1G	\$188.33
ITB0055-050	TB-55 YELLOW - 5G	\$867.16

Color: Orange-Yellow (Similar to TB17)

ITB0057-020	TB-57 YELLOW – 1QT	\$60.65
ITB0057-030	TB-57 YELLOW - 1G	\$205.35
ITB0057-050	TB-57 YELLOW - 5G	\$938.45

Technical Details:

TB15 → TB55	Specific Gravity: Same	Viscosity: Same
TB17 → TB57	Specific Gravity: Same	Viscosity: Same

Note: Due to metamerism occurring between the old TB's and the new TBs, Endura will match all colors under daylight conditions.

For any questions on the new TBs, or on changing formulas to use these new TBs please call the Endura color dept. at 1-800-661-9930.
