

ENDURA PAINT

Motion Release Anti-Fouling

Easy to Clean

Easy to Apply

Marine Coating Systems Below the Waterline Solutions

Below the water-line, Endura Coatings provide superior high performance protection. Our non-stick silicone anti fouling coating system is designed to provides outstanding resistance to chemicals and abrasions, extending the service life of marine equipment.

Endura has created custom paint solutions for many different marine craft and substrates including aluminum, steel, and fiberglass. Visit www.endura.ca/marine for many spec options.

1

Endura Epoxy Sealer

Chrome Free and **Low VOC**
Ultra Smooth Thin Film Sealer
Available in Green and White

Endura EP-2C

Quick Topcoat Window
Smooth Thin Film Sealer
Available in Green

2

Endura Guardian

Low VOC
Easy Application by Spray, Brush or Roller
Surface tolerant in damp conditions
Water Proof at 6 mils DFT

Endura EP-HiBuild

Low VOC
High Impact Resistance
Available in 3 colors
Water Proof at 10 mils DFT

3

Endura Sub-C Anti-Fouling

Low VOC
Motion Release Silicone Based Anti Fouling Coating
Excellent Chemical resistance
Easy to apply (rollable and sprayable)
Estimated 3 year service life!
